Dear Ms. Santos,

Please find attached for your review and approval the Cap Modification Plan (CMP) Addendum which addresses comments and feedback received verbally during a conference call on November 14, 2014. We hope that this addendum satisfies the request for additional information and work plan requirements and we look forward to receiving conditional approval to move forward with the pre-demolition characterization sampling. Our goal is to conduct the soil sampling activities during the week of December 22nd or December 29th, 2014.

Please let me know if you have any questions or concerns. We look forward to hearing from you soon!

Sincerely,
Erica
